Quantity Surveyor | Estimator | Data Analytics

PROFESSIONAL SUMMARY

A male actively seeking for a quantity surveying placement to improve my skills and expand my industrial knowledge and make a positive contribution to the organization. As a Quantity Surveyor and Estimator, have accumulated 3 years in contracting, and have engaged in freelance contracting for 4 years, specializing in tender submissions, project evaluation, and cost reporting. Further accumulated extensive skills in data analysis and research.

EXPERIENCE

Freelance: Estimation | Quantity Surveying | Monitoring & Evaluation ***02/ 2021 - Present***

- Participated in tender submission for 60 Ablution Blocks projects managed by Simphiwe Trust (NGO), overseeing a project valued at US\$150,000.00 to enhance community sanitation infrastructure.
- Developed a monitoring & evaluation framework for climate-friendly structures post-Cyclone Idai, supporting rehabilitation efforts for houses with a local NGO (Mai Nevana).
- Quantified multiple residential and commercial structures, with a collective value of US\$500,000.00 in value, ensuring accurate cost estimation and budget compliance.

Quantity Surveyor, Mangqoba Engineers & Contractors (MEC) ***02/ 2019 – 10/ 2021***

- Conducted comprehensive Building and Site surveys to assess project scope and feasibility.
- Quantified quantities, created rate build up structures, with the goal of managing construction costs.
- Conducted quality assurance inspections and monitored maintenance and repair services to uphold project standards and minimize downtime.

Intern Quantity Surveyor (National Diploma), National Railways of Zimbabwe (NRZ) ***02/ 2016 – 12/ 2017***

- Conducted site surveys, production of BoQs and other duties as a Quantity Surveyor *intern*
